

DACAMP L1

Portable headphone amplifier and DAC

RIHA
SOUND. ENGINEERED.

Portable headphone amplifier and DAC with dedicated channel processors

- A** Dedicated ES9018K2M DAC and class AB amplifier for each audio channel.
- B** Digital inputs including USB A (iOS), USB Micro (Android, PC, Mac) & Optical.
- C** 3.5mm and 4-pin Mini XLR headphone outputs.
- D** Design inspired by classic hi-fi, including durable aluminium build and EQ control dials.
- E** 4000mAh lithium ion battery for 10 hours of use, and mobile device charging.
- F** Supplied with silicone bands, grip cloth and two USB cables.

High-resolution digital to analogue processing

The Dacamp L1 is a portable headphone amplifier and DAC with dedicated processing circuits for each audio channel. It retrieves digital audio signals from smartphones, laptops, tablets and desktops, and uses premium DAC components to decode, convert and produce high-resolution, true-to-life analogue audio.

Packaging

Height: 200mm
Width: 150mm
Depth: 70mm

Inputs	Line in (3.5mm), USB A, USB micro-B, Mini-TOSLINK optical
Outputs	3.5mm headphone out & 4-pin Mini XLR
Frequency range	10Hz - 100kHz
THD	<0.0018%
Dynamic range	111dB
Output impedance	2.2Ω
Power output (16Ω)	300mW
Power output (300Ω)	28mW
PCM sampling frequencies	44.1 - 384 kHz, 16 / 24 / 32-bit
DSD sampling frequencies	2.8224MHz (DSD64), 5.6448MHz (DSD128), 11.2896MHz (DSD256)
Dimensions	118x72x20mm
Weight	233g
Battery	4000mAh lithium ion

Model No: DACAMP L1
SKU No: 501001
EAN No: 5060212271457
