

Sonus faber

AMATI
Opere

“Amati Supreme is the embodiment of our belief that design and sound are inseparable,” said Livio Cucuzza, Chief Design Officer of Sonus faber.

“Every curve, material, and detail were chosen not only to elevate acoustic performance, but to create an emotional and visual connection with the listener.

This speaker represents our most complete expression of craftsmanship, innovation, and Italian artistry.”

A handwritten signature in black ink, appearing to read 'Livio Cucuzza', with a long horizontal flourish extending to the right.

The Amati Supreme enhances the iconic Sonus faber model by integrating advanced technologies and refined aesthetics. With the trickle-down implementation of Suprema's "Voice of Sonus faber" (VOS) and an innovative crossover network, Amati Supreme sets a new benchmark in the Sonus faber lineup.

Through meticulous craftsmanship, Amati Supreme refines and reinterprets the brand's legacy, delivering a musical experience that is as immersive as it is emotionally engaging.

With nearly 600W of undistorted output signal capacity, Amati Supreme is capable of extraordinary power handling, bringing to life a dynamic range that mirrors the intensity and intimacy of live performance.

Available in two exclusive matte finishes—Sabbia Oro and Terra Rossa—the Amati Supreme offers more than just exceptional sound; it becomes a statement piece that elevates any living space to the realm of true luxury.

These refined finishes extend beyond the side panels to envelop the entire cabinet, including the meticulously crafted front baffle. The rich, velvety surfaces interact subtly with ambient light, creating dynamic reflections that shift throughout the day, imbuing the speaker with a sense of movement, depth, and timeless sophistication.

This seamless fusion of design and craftsmanship ensures the Amati Supreme is as visually captivating as it is sonically powerful.

Amati Supreme's tweeter and midrange are loaded into a dedicated volume damped with cork - designed to nurture internal volume, and further enhance the performance of the drivers.

This cork surface is realized through the use of computer simulation, yet the resulting unit is truly organic in shape; without regular shapes and constructed from a completely natural and sustainable material.

As a brand famed for innovation, Sonus faber can once again proudly claim another design and engineering first - pioneering the use of cork to create acoustic volume. The acoustic properties of this material play a fundamental role in the resolution and natural quality of Amati Supreme's midrange performance.

T H E D R I V E R S

Amati Supreme proudly inherits the advanced “Voice of Sonus faber” (VOS) technology from our flagship Suprema, affirming our unwavering commitment to Natural Sound. At the heart of its acoustic architecture lies a meticulously curated trio of drivers: the silk dome tweeter, super tweeter, and the Camelia midrange unit.

The tweeter and super tweeter extend the high-frequency spectrum with exceptional transparency and finesse, capturing the subtlest musical nuances with natural delicacy. Complementing them, the proprietary Camelia midrange, equipped with our refined Phase Plug, delivers outstanding control and articulation in the mid frequencies—where emotion and detail reside.

Notably, these are the exact same transducers employed in Suprema, reinforcing Amati Supreme’s performance credibility. Each component is tuned to work in perfect harmony, offering an immersive, lifelike listening experience that elevates the Sonus faber signature sound.

W H Y H I D E G R E A T N E S S

Y S H A P E D W I N D O W

At the very top of the Amati Supreme, a striking Y-shaped transparent window captures attention and sparks curiosity, offering more than just a design flourish—it's an invitation into the soul of the speaker.

Through this elegantly crafted feature, listeners are granted a rare glimpse into the meticulously engineered mid-high crossover section, where precision and artistry converge.

The components within are not only technically advanced but beautifully arranged, almost sculptural in their presentation, revealing the level of craftsmanship that defines Sonus faber.

This window isn't merely decorative; it's a statement of transparency—both literal and philosophical—a tribute to the principle that form always follows fun. It subtly draws the listener deeper into the listening experience, reminding them that every sonic detail is the result of intentional, masterful engineering.

With the Y-shaped window, the Amati Supreme tells a story of innovation, elegance, and acoustic perfection.

THE HEART OF ENGINEERING

THE CROSSOVER

Evolving the “Phase Coherent” concept of Sonus faber’s signature sound, Amati Supreme’s crossover network features the identical components found in Suprema’s crossovers.

This design, refined through countless hours of listening and testing during Suprema’s development, ensures seamless integration and perfect synchronicity among all drivers.

Amati Supreme's intuitive MID-HIGH and MID-BASS tunable system allows listeners to customize the soundscape to their personal space.

This fine-tuning mechanism, subtly integrated into the rear panel, provides adjustments that maintain the speaker's tonal purity while adapting to different room acoustics.

This ensures Amati Supreme delivers its full potential in any setting, from intimate listening chambers to grand living spaces, providing a tailored auditory experience that always embodies the Sonus faber signature.

THE FINER DETAILS

SPECIFICATIONS

System	4.5 way, Midrange sealed box, Woofers vented box "Stealth Ultraflex" system
Loudspeakers	Stw: Ø 20 mm, silk dome with dedicated waveguide, High Power Neodymium, Extended Range Double Soft Dome. Tw: Ø 38 mm, silk dome with dedicated waveguide, High Power Neodymium, Extended Range Double Soft Dome. Md: Ø 165 mm, dual driver motor system with neodymium ring magnet. W: Ø 2×220 mm, Dual Drive Motor System
Crossover Points	230, 300, 1800, 5600 Hz. High End components, Phase Coherent Level 3
Frequency Response	28 Hz – 40000 Hz
Sensitivity	91 dB SPL (2.83V/1 m)
Nominal impedance	4 Ohm
Recommended power amplifier	50W - 600W, undistorted signal
Connectivity	4 connectors binding post: Mid-Hi, Low
Product dimensions (HxWxD)	1176 × 411 × 512 mm / each 46.3 × 16.2 × 20.1 in / each
Dimensions with packaging (HxWxD)	1340 × 570 × 740 mm / each 53.8 × 22.4 × 29.1 in / each
Weight	62 kg / each - 136,7 lb
Packaging weight	84,5 kg / each - 186,3 lb
Cabinet	Lute shape, Painted wood, Plexiglass, Aluminum
Controls	Mid-high and Mid-bass adjust

At Sonus faber, we continuously strive to honour and elevate the authentic traditions of artisan Italian craftsmanship.

Our legacy is built upon crafting loudspeakers like musical instruments, wedded to the highest standards of luxury, leading design, and cutting-edge technology.

Using only the finest woods and raw materials, each production piece of Sonus faber's hand-made audio equipment is a true work of art, with each new concept designed to immerse the listener in sound to new and untold depths.
